

Why Should I Join MMPAC?

There are many reasons ... here are some of them:

Strength in numbers – The Missouri Medical Political Action Committee is the largest physician-run PAC in the state. More than 1,000 physicians donated to MMPAC during the last election cycle.

Relationships matter – MMPAC donations are used to establish relationships with physician-friendly legislators in the Capitol, who work hard every day to champion the cause of physicians and patients in Missouri.

You're busy – let MMPAC do the legwork! The MMPAC board meets regularly and works to identify candidates who understand the issues and challenges that physicians face. Rest assured that your dollars will help elect and retain legislators whose priorities align with those of physicians.

Keeping it close to home – In the past, a portion of your MMPAC contribution was routed to the national AMPAC. Now, every dollar you contribute stays right here in Missouri.

MMPAC is neutral – MMPAC is a non-partisan organization. Our measuring stick doesn't see red or blue, "R" or "D". We support the right candidate for the job – the one who will work to protect the interests of the house of medicine – regardless of political party.

It's good to be on the winning team – Our "win rate" is impressive! In the last election, MMPAC dollars supported a broad field of candidates, over 95% of whom won their races. It's good to know that your contribution is diligently and thoughtfully applied.

You can't afford not to – Government rules, regulations and legislative mandates can affect the practice of medicine as much as medical research! Physicians must join together to make their voices heard. Don't be left behind – support MMPAC's efforts to shape legislation that benefits the house of medicine.
